EXECUTOR'S SALE OF VALUABLE LAND IN ALBEMARLE COUNTY.-I will offer for sale at public auction, on the premises, on Tuesday, 11th of September, 1860, if fair, if not the next fair day, a Tract of Land, belonging to the estate of Dabney Minor, dec'd., of said County, and containing about 2000 ACRES. This large and valuable estate is situated on My Chunk Creek; and the Flatlands or Creek Low-grounds constitute a large part of the cleared land, and only need proper drainage to make them highly productive: the balance of the cleared land is either table land or beautifully undulating hills, and is of good quality, and for the most part in good condition for profitable cultivation. There is a vein of Limestone running through the farm (which has been opened many years ago,) and the lands being admirably adapted to the use of Lime, (as may be seen on the adjoining farms,) renders this property essentially and permanently valuable in the eyes of the enlightened agriculturist; and this, with its remarkable proclivity to produce grass, would make it, under good management, unsurpassed in the county, as a grazing, or Meadow Farm: at the same time, the land is well suited to the growth of Corn, Wheat, Oats and Tobacco.

and has an unlimited supply, of the best Plant land. A large portion of this farm is in original forest, well timbered with Pine, Oak and Chestnut. This timber is all marketable at remunerative, prices, either for Railroad Sills, for fuel at Charlottesville and the University of Va., or for the lumber market at Richmond, and elsewhere .-The Farm is 9 or 10 miles from Charlottesville ses through it, and the improved Horse-Boat Navigation on the Rivanna River is only three or four miles distant, and the University has been supplied with fuel several years past by a farm on the same Railroad, but more remote from the University. The Buildings are comfortable and good, and in good repair; the DWELLING HOUSE is beautifully situated and com-

mands an extensive view of the South West Mountains, from which it is distant two or three miles and the neighborhood affords as good society as can be found anywhere, and has convenient Churches of all denominations. The Farm is sus ceptible of division and if desirable may be divid ed to suit purchasers Permission will be given to sow a crop of Wheat in the Fall, if desired, and possession given the 1st day of January, 1861.
